In the mid-15th century the Inca Emperor Pachacuti conquered the town of Ollantaytambo and re-built it as a religious, political and military complex as well as a resting place for the Inca nobility. During the Spanish conquest of Peru, Ollantaytambo served as headquarters for Manco Inca the resistance leader who retreated to Ollantaytambo following his defeat in the siege of Cusco in 1536. He then subsequently successfully defeated the Spanish in a battle at Ollantaytambo by flooding the valley below. The Spanish led by Hernando Pizarro subsequently returned with a far greater army and eventually took control of Ollantaytambo while Manco Inca fled to the city of Vilcabamba. The fortress is located on the western side in the area known as Aracma Ayllu and is made up of a series of imposing, terraces, temples, platforms, paths and walls and offers excellent views of the surrounding countryside, the town of Ollantaytambo itself and the Incan storehouses or 'Qollqa' built on the Pincuylluna mountain opposite the ruins.

another sacred temple with fine masonry. The other major local temples in Machu Picchu are the Temple of the Condor, Temple of Three Windows, Principal Temple, " **Unfinished Temple** ", and the Temple of the Sun, also called the Torreón. Then we'll participate in a guided tour of the Citadel, visiting the Main Plaza, the Circular Tower, **The Sacred Sun Dial** the Royal Quarters, the Temple of the Three Windows and various burial grounds.

The Sun Gates of Machu Picchu boast a picture - perfect vantage point overlooking Peru's most famous ruins. Tourists flock to this outcrop high in the Andes Mountains to enjoy the same view featured on virtually every postcard depicting the Machu Picchu citadel. Also known as Inti Punku, the Sun Gates consist of two stones perched at a narrow passage in the crevice of the mountain just above Machu Picchu. The sun shines brilliantly through this portal each day when it rises - hence the name.

Machupicchu Museum & Orchid Garden

The museum has the aspect of a small rural house, but at the same time dynamic and modern, where you can find around 400 cultural pieces divided in 7 rooms, that explain in the simplest and most enjoyable way the history and significance of Machu Picchu. Among the best examples displayed in the museum the following stand out: the constructive tools of copper and bronze, as well as pins and anthropomorphic representations, a clear proof of metallurgical ability of the Incas; we can also find lithic objects and vessels made of clay, possibly used to do rituals. The site museum also offers visitors the possibility to explore the "Orquideario" (**The Orchid Garden**), with more than 400 species of plants and a "Mariposario" (**Butterfly Garden**) that houses species unique in the world. **The Andean Cock-of-the-Rock** is Peru's national bird. One of the most famous birds of Peru with stunning head-dress of orange-red feathers that remind some of the orange-red fringe that Incas used to wear as a badge of his rank.

It takes place one week before the Corpus Christi feast. The region is inhabited by llama and alpaca herding communities, and constitutes one of the few remaining pastoralist societies in the world. High mountain trails are used by these herders to trade with agricultural communities at lower elevations. Currently, one of these trails, " **the road of the Apu Ausangate** ", is one of the most renowned treks in Peru. The area has four major geological features, the Andean uplift formed by Granits, the hanging glaciers and glacial erosional valleys, the Permian formation with its singular colors: red, ochre, and turquoise and the Cretaceous, limestone forests.
